Supporting Template

For the 2015 CARIP Climate Action/Carbon Neutral Progress Survey

This year's CARIP reporting process consists of a single online survey – the 2015 CARIP Climate Action/Carbon Neutral Progress Survey – that combines the two surveys from last year into one. The 2015 survey has been simplified to make reporting easier.

Local governments are required to submit the 2015 CARIP Climate Action/Carbon Neutral Progress Survey on or before June 1, 2016.

Local governments are also required to publicly report the information submitted in the 2015 CARIP Climate Action/Carbon Neutral Progress Survey. There are three ways a local government can report to the public, including using:

- the report generated by the 2015 CARIP Climate Action/Carbon Neutral Progress Survey (FluidSurveysTM software),
- a report based on the populated supporting template provided to local governments, or,
- a report in another format that contains the information submitted in the 2015 CARIP Climate Action/Carbon Neutral Progress Survey.

In response to local government input, this supporting template has been created to assist with collecting information for the 2015 CARIP Climate Action/Carbon Neutral Progress Survey, and follows the same structure.

Responses entered into the template can be cut and pasted into the survey. The survey asks for up to five actions in each category, and there is a place in the survey to report additional actions if desired. In the template, simply add more lines to the tables to report more than five actions.

Use of the template is **optional**. Local governments may choose to edit the populated template and use it for their public report, as an alternative to the report generated by the *2015 CARIP Climate Action/Carbon Neutral Progress Survey*.

Further information on CARIP can be found on the <u>Ministry of Community Sport and Cultural</u> <u>Development's website</u>.

Climate Action Revenue Incentive (CARIP) Public Report for 2015

Local Government:

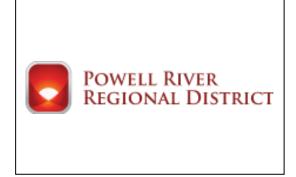

Report Submitted by: Name: Linda Greenan

Role: Manager of Financial Services

Email: linda.greenan@powellriverrd.bc.ca

Phone: 604 485-2260

Date: May 27, 2016

The Powell River Regional District has completed the 2015 Climate Action Revenue Incentive Program (CARIP) Public Report as required by the Province of BC. The CARIP report summarizes actions taken in 2015 and proposed for 2016 to reduce corporate and community-wide energy consumption and greenhouse gas emissions (GHG) and reports on progress towards achieving carbon neutrality. There is also an opportunity to report on climate adaptation actions.

2015 BROAD PLANNING ACTIONS

Broad Planning Actions

Broad planning refers to high level planning that sets the stage for GHG emissions reductions, including plans such as Official Community Plans, Integrated Community Sustainability Plans, Climate Action Plans or Community Energy Emissions Plans. Land use planning that focuses on Smart Growth principles (compact, complete, connected, centred) plays an especially important role in energy and GHG reduction.

Coı	mmunity-Wide Actions Taken in 2015
	Electoral Area A Official Community Plan (OCP) completed in December 2015. This OCP applies to a
	previously unplanned electoral area and includes climate change policies, GHG emission reduction
	targets and GHG emission reduction actions.
Coi	mmunity-Wide Actions Proposed for 2016
	Electoral Area D Official Community review and update will include update of climate change
	policies, GHG emission reduction targets and GHG emission reduction actions.

Co	rporate Actions Taken in 2015
	Powell River Regional District (PRRD) Strategic Plan 2015-2018 completed and adopted by the
	Regional Board in 2015. The Strategic Plan identified five corporate strategic priorities for 2015-
	2018. One of the five strategic priorities is "Climate Change Mitigation and Adaptation". Strategic
	goals under this priority include: (1) develop a program for lowering our carbon footprint; (2)
	implement solid waste management plan; and (3) continue natural hazard identification to promote
	public safety and environmental protection. There are a number of strategic actions identified
	under each of the goals.
	Detailed planning of a landfill closure and resource recovery center project with local budgeted
	funding as well as grant application to the strategic priorities fund.
	Third phase Padgett Road bike and pedestrian lane completed totalling 3,432 meters for all 3
	phases.

Coı	porate Actions Proposed for 2016
	Organics diversion from the waste stream budgeted in 2016 with planned pilot implementation
	September 01 2016.
	Solid Waste Management Plan update budgeted for 2016 that will further detail opportunities and
	initiatives for the Powell River Regional District to make headway in achieving its goal of zero waste.
	Construction and implementation of mobile dish washing station for local events enabling
	dishwashing and reuse of dishes as opposed to single use plates, forks, knives etc.
	Engage GHG reductions qualified professionals to assess Regional District properties and
	recommend improvements by priority budgeted for 2016.
	Asset management inventory initiated in 2016 that will be inclusive of all assets inclusive of trees
	and forests within the Regional District.

Snapshot Questions	
What GHG reduction targets are included in your local government's Official Community Plan	Yes
or Regional Growth Strategy?	
Are you familiar with the Community Energy and Emission Inventory (CEEI)?	Yes
Does your local government use the Community Energy and Emissions Inventory (CEEI) to measure progress?	Yes
Which of the following does your local government use to guide climate action implementation?	
Community Energy and Emissions (CEE) Plan	No
Climate Action Plan	No
Integrated Community Sustainability Plan	No
Official Community Plan (OCP)	Yes
Regional Growth Strategy (RGS)	No
Other:	No
Does your local government have a climate action reserve fund?	No
Does your local government have a Corporate Climate Action Plan?	No

2015 BUILDINGS AND LIGHTING ACTIONS

Building and Lighting Actions

Low-carbon buildings use the minimum amount of energy needed to provide comfort and safety for their inhabitants and tap into renewable energy sources for heating, cooling and power. These buildings can save money, especially when calculated over the long term. This category also includes reductions realized from energy efficient street lights and lights in parks or other public spaces.

Coi	mmunity-Wide Actions Taken in 2015
Coi	mmunity-Wide Actions Proposed for 2016
	The Regional District will undertake a study to develop a corporate greenhouse gas reduction strategy.
Coi	porate Actions Taken in 2015
Co	porate Actions Proposed for 2016

2015 ENERGY GENERATION ACTIONS

Energy Generation

A transition to renewable or low-emission energy sources for heating, cooling and power supports large, long-term GHG emissions reductions. Renewable energy including waste heat recovery (e.g. from biogas and biomass), geo-exchange, micro hydroelectric, solar thermal and solar photovoltaic, heat pumps, tidal, wave, and wind energy can be implemented at different scales, e.g. in individual homes, or integrated across neighbourhoods through district energy or co-generation systems.

Con	nmunity-Wide Actions Taken in 2015
Con	nmunity-Wide Actions Proposed for 2016
Cor	porate Actions Taken in 2015
Cor	porate Actions Proposed for 2016

Snapshot Questions	
Is your local government developing, or constructing a district energy project?	No
Is your local government operating a district energy system?	No
Is your local government developing or constructing a renewable energy project?	No
Is your local government operating a renewable energy project?	No
Are you aware of the Integrated Resource Recovery guidance page on the BC Climate Action Toolkit (insert link here)?	No

2015 GREENSPACE/ NATURAL RESOURCE PROTECTION ACTIONS

Greenspace/Natural Resource Protection refers to the creation of parks and greenways, boulevards, community forests, urban agriculture, riparian areas, gardens, recreation/school sites, and other green spaces, such as remediated brownfield/contaminated sites as well as the protection of wetlands, waterways and other naturally occurring features.

Community-Wide Actions Taken in 2015
Community-Wide Actions Proposed for 2016
Corporate Actions Taken in 2015
Corporate Actions Proposed for 2016

Does your local government have urban forest policies, plans or programs?

Snapshot Question

No

2015 SOLID WASTE ACTIONS

Solid Waste

Reducing, reusing, recycling, recovering and managing the disposal of the residual solid waste minimizes environmental impacts and supports sustainable environmental management, greenhouse gas reductions, and improved air and water quality.

Coi	mmunity-Wide Actions Taken in 2015
	\$100,000 education program focusing on BC stewardship programs and accepted materials.
	The Resource Recovery Center grant application targeted at 60% diversion from the current waste
	stream.
Coı	mmunity-Wide Actions Proposed for 2016
	\$100,000 education program focusing on organics diversion from the waste stream.
	Community engagement and education for the approval of building a resource recovery center to
	divert 60% of the current waste stream.
	Launch of an organics diversion pilot project September 1, 2016.
	Solid Waste Management Plan update with focus on zero waste goals inclusive of construction and
	demolition waste reduction.

Coi	rporate Actions Taken in 2015
Coı	rporate Actions Proposed for 2016

Snapshot Questions	
Does your local government have construction and demolition waste reduction policies, plans	No
or programs?	
Does your local government have organics reduction/diversion policies, plans or programs?	Yes

2015 TRANSPORTATION ACTIONS

Community - Wide Actions Taken in 2015

Transportation

Transportation actions that increase transportation system efficiency, emphasize the movement of people and goods, and give priority to more efficient modes, e.g. walking, cycling, ridesharing, and public transit, can contribute to reductions in greenhouse gas emissions and more livable communities.

	Area B (along Padgett Road).
Co	mmunity-Wide Actions Proposed for 2016
	Phase 4 of active transportation infrastructure (cycling and walking paths) to be developed in
	Electoral Area B (along Padgett Road).

Snapshot Questions		
Does your local gov	vernment have policies, plans or programs to support:	
•	Walking	Yes
•	Cycling	Yes
•	Transit Use	Yes
•	Electric Vehicle Use	Yes
•	Other	Yes
Does your local government have a transportation demand management (TDM) strategy (e.g. to reduce single-vehicle occupancy trips, increase travel options, provide incentives to encourage individuals to modify travel behavior)?		No
	vernment have policies, plans or programs to support local food educing transportation emissions)?	Yes

2015 WATER AND WASTEWATER ACTIONS

Water and Wastewater

Snapshot Questions

Managing and reducing water consumption and wastewater is an important aspect of developing a sustainable built environment that supports healthy communities, protects ecological integrity, and reduces greenhouse gas emissions.

Co	mmunity-Wide Actions Taken in 2015		
	Completion of Myrtle water system upgrades providing higher quality safe drinking water to our		
	customers using less energy than previous system.		
	Lund Sewer system priority items complete inclusive of meter installation to track outfall volumes.		
	Pump replacements and rebuilds to provide for system resilience and improved energy efficiency.		
	Repairs to number 1 lift station remedying salt water infiltration during king tides reducing pump		
	running time, risk of corrosion to treatment facility and loss of bacteria.		
Co	mmunity-Wide Actions Proposed for 2016		
Co	Corporate Actions Taken in 2015		
Co	rporate Actions Proposed for 2016		
	·		

Does your local government have water conservation policies, plans or programs?

No

2015 CLIMATE CHANGE ADAPTATION ACTIONS

Climate Change Adaptation

For local governments, adaptation to a changing climate can take the form of changes in policy, management, technology and behaviour that minimize negative impacts or exploit opportunities. It can involve both "hard" and "soft" solutions, including: changes in infrastructure engineering, planning, zoning, bylaws, and public education.

Coi	Community-Wide Actions Taken in 2015		
	Lund Sewer system priority items complete inclusive of meter installation to track outfall volumes.		
	Pump replacements and rebuilds to provide for system resilience and improved energy efficiency.		
	Repairs to number 1 lift station remedying salt water infiltration during king tides reducing pump		
	running time, risk of corrosion to treatment facility and loss of bacteria.		
	Establish collaborative partnerships with Stewardship Centre for BC (Green Shores for Homes Pilot		
	Project) and UBC (Coastal Indicators Project and Marine Transportation Project) to support policy		
	development and community engagement on climate change adaptation actions. Green Shores for		
	Homes Pilot Project has supported foreshore policy development and delivery of workshops and		
	training for residents, contractors and staff on how the Green Shores for Homes approach can be		
	used to stabilize shorelines from erosion. UBC Coastal Indicators Project and Marine Transportation		
	Project will support climate change adaptation planning and promotion of community resiliency.		
Coi	mmunity-Wide Actions Proposed for 2016		
	Electoral Area D Official Community review and update will include update of policies that promote		
	land use and development resilient to predicted long range climate change impacts such as rising		
	sea levels, increasing storm surge, coastal flooding, increasing intensity of rainfall events and		
	increasing periods of drought in summer months.		
	Continue to learn about and promote approaches to climate change adaptation across the region		
	through collaborative partnerships formed with Stewardship Centre for BC (Green Shores Program)		
	and UBC (MEOPAR Program).		

Coı	Corporate Actions Taken in 2015		
	Powell River Regional District (PRRD) Strategic Plan 2015-2018 completed and adopted by the Regional Board in 2015. The Strategic Plan identified five strategic priorities for 2015-2018. One of the five strategic priorities is "Climate Change Mitigation and Adaptation". Strategic goals under climate change mitigation and adaptation include: (1) develop a program for lowering our carbon footprint; (2) implement solid waste management plan; and (3) continue natural hazard identification to promote public safety and environmental protection. There are a number of strategic actions identified under each of the goals.		
Coı	rporate Actions Proposed for 2016		
	Continue to implement PRRD Strategic Plan 2015-2018 including strategic action plan for climate change mitigation and adaptation.		

Snapshot Questions	
Are you aware of the Plan2Adapt guidance page on the <u>BC Climate Action Toolkit</u> ?	Yes
Are you aware of the <i>Preparing for Climate Change, An Implementation Guide for Local Governments in BC</i> on the <u>BC Climate Action Toolkit</u> ?	Yes
Have you visited the climate change adaptation guidance page on the <u>BC Climate Action</u> <u>Toolkit</u> ?	Yes

2015 OTHER CLIMATE ACTIONS

Other Climate Actions

This section provides local governments the opportunity to report other climate actions that are not captured in the categories above.

Coi	mmunity-Wide Actions Taken in 2015
Coi	mmunity-Wide Actions Proposed for 2016
Coi	rporate Actions Taken in 2015
Coi	rporate Actions Proposed for 2016

INNOVATION AND PEER-TO-PEER LEARNING

Innovation

Community-Wide Innovative Action

This section provides the opportunity to showcase an innovative Corporate and/or Community-Wide reduction or adaptation activity that your local government has undertaken and that has had a significant impact or has the potential to have a significant impact. Projects included here may be featured as success stories on the B.C. Climate Action Toolkit and/or shared with other local governments to inspire further climate action. Please add links to additional information where possible.

Corporate Innovative Action
Programs, Partnerships and Funding Opportunities
Local governments often rely on programs, partnerships and funding opportunities to achieve their
climate action goals. Please share the names of programs and organizations that have supported your
local government's climate actions by listing each entry in the appropriate box below.
Programs and Funding

2015 CARBON NEUTRAL REPORTING

Reporting Emissions

the number of corporate GHG emissions (in tonnes of carbon dioxide equivalent) from contracted services:	105.0
If your local government measured 2015 corporate GHG emissions, please report	
from services delivered <u>directly</u> by your local government:	
the number of corporate GHG emissions (in tonnes of carbon dioxide equivalent)	55.5
If your local government measured 2015 corporate GHG emissions, please report	
(Yes/No)	Yes
Did you measure your local government's corporate GHG emissions in 2015?	

Reporting Reductions and Offsets

To be carbon neutral, a local government must balance their TOTAL corporate GHG emissions by one or a combination of the following actions:

- undertake Option 1 Projects (GCC-supported)
- undertake Option 2 Projects (alternative) community GHG emissions reduction projects that meet project eligibility requirements
- purchase carbon offsets from a credible offset provider

If applicable, please report the 2015 GHG emissions reductions (in tonnes of carbon dioxide equivalent (tCO2e)) being claimed from Option 1 GHG Reduction Projects:

OPTION 1 PROJECTS	REDUCTIONS
Energy Efficient Retrofits	
Solar Thermal	
Household Organic Waste Composting	
Low Emission Vehicles	
Avoided Forest Conversion	
TOTAL B: REDUCTIONS FROM OPTION 1 PROJECTS FOR 2015	tCO2e

If applicable, please report the names and 2015 GHG emissions reductions (in tonnes of carbon dioxide equivalent (tCO2e)) being claimed from Option 2 GHG Reduction Projects:

OPTION 2 PROJECT NAME	REDUCTIONS
TOTAL C: REDUCTIONS FROM OPTION 2 PROJECTS FOR 2015	tCO2e

If applicable, please report the number of offsets purchased (in tonnes of carbon dioxide equivalent (tCO2e)) from an offset provider for the 2015 reporting year:

(NOTE: DO NOT INCLUDE ANY FUNDS THAT MAY BE SET ASIDE IN A CLIMATE ACTION RESERVE FUND)

OFFSET PROVIDER	REDUCTIONS
TOTAL D: OFFSETS PURCHASED FOR 2015	tCO2e

TOTAL REDUCTION AND OFFSETS FOR 2015 (Total B+C+D) = 160.50 tCO2e

Corporate GHG Emissions Balance for 2015

Your local government's Corporate GHG Emissions Balance is the difference between total corporate GHG emissions (direct + contracted emissions) and the GHG emissions reduced through GCC Option 1 and Option 2 projects and/or the purchase of offsets.

CORPORATE GHG EMISSIONS BALANCE FOR 2015 = (A - (B+C+D)) = 160.5 tCO2e

If your Corporate GHG Emissions Balance is negative or zero, your local government is carbon neutral.

CONGRATULATIONS!

GCC CLIMATE ACTION RECOGNITION PROGRAM

Green Communities Committee (GCC) Climate Action Recognition Program

The joint Provincial-UBCM Green Communities Committee (GCC) is pleased to be continuing the Climate Action Recognition Program again this year. This multi-level program provides the GCC with an opportunity to review and publicly recognize the progress and achievements of each Climate Action Charter (Charter) signatory. Recognition is provided on an annual basis to local governments who demonstrate progress on their Charter commitments, according to the following:

Level 1 - Progress on Charter Commitments: for local governments who demonstrate progress on fulfilling one or more of their Charter commitments

Level 2 - Measurement: for local governments who have measured their Corporate GHG Emissions for the reporting year and demonstrate that they are familiar with the Community Energy and Emissions Inventory (CEEI)

Level 3 - Achievement of Carbon Neutrality: for local governments who achieve carbon neutrality in the reporting year.

Based on your local government's 2014 CARIP Public Report, please check the GCC Climate Action Recognition Program level that best applies:

Level 1 - Progress on Charter Commitments	
Level 2 - Measurement	✓
Level 3 - Achievement of Carbon Neutrality	
Not Sure
